Main dwelling structures exceeding 480 square feet or total structural space of more than 764 square feet not previously authorized by the Land Department will be subject to de-construction. The construction of the cabin must be initiated within two years from the execution of a lease or the removal or loss of the previous dwelling. The cabin shall be a single story (maximum height of 16 feet with 8 foot or less sidewalls), and constructed of materials approved by the Lessor. Concrete slab floors are prohibited except for approved saunas.

No more than three additional structures will be allowed, one of which may be a dwelling structure (bunkhouse) not to exceed 256 square feet, with no combination of structures exceeding 564 or 764 square feet depending on the lease. The main dwelling structure and additional structures must have separate walls. Placement of adjacent structures must have a minimum separation of six feet between exterior walls. Structures must be located within 100 feet of the primary structure and placed in such a way so as not to obstruct the public use of the land. Placement of secondary structures shall be subject to all County ordinances and will be constructed of the same materials described above for cabins.

The construction of a three-cord woodshed with no solid walls and a minimum of three-inches between slats is allowed. Slats must be narrow pieces of wood no greater than six-inches in width. The woodshed is not included as structural square footage.

The total area occupied by all structures on a lease site shall not exceed 564 square feet or 764 square feet, depending on the leasing option. No lease shall exceed 764 square feet unless previously authorized by the Land Department.

Any required action stated in the notice must be completed within the time period indicated in the notice. Any penalty imposed by Lessor for a violation must be paid within the time stated in the Notice or the Lease may be canceled.
